FAQ	ANSWER
Internet Access successful:	Green light
How to fix a connection issue due to a too big distance between my Home router and the WiFi module.	(1) Use a 10m extension cable, please contact your dealer. (2) Use a Wi-Fi range extender WiFi (not supplied).

Operation and Use

Check the Failure Information of heat pump

Note:If the machine fails, please clear the fault promptly.

5.FAQ

5.1 when the APP can not connect the device,it show “Failed to connect to device”

Answer:The network is abnormal,please check your network.

5.2 when the APP can not connect the device,it show “Device offline”

Answer:The wifi module is dropped,please check the connection of the WIFI module,or restart and connect the module again

5.3 The distance between my device and router is too long which results in a signal instability.

Try to add another router between the original router and the equipment in order to relay Signal.

5.4 Something goes wrong with my equipment, what should I do?

- (1) Check error message in Setting(see page.20) or displayed in wire controller.
- (2) Look up corresponding error code in the instruction of your equipment to find out the problem.
- (3) Contact your supplier for after-sales maintenance if necessary.

**IMPORTANT INFORMATION FOR CORRECT DISPOSAL OF THE PRODUCT
IN ACCORDANCE WITH EC DIRECTIVE 2002/96/EC.**

At the end of its working life, the product must not be disposed of as urban waste. It must be taken to a special local authority differentiated waste collection centre or to a dealer providing this service.

Disposing of a household appliance separately avoids possible negative consequences for the environment and health deriving from inappropriate disposal and enables the constituent materials to be recovered to obtain significant savings in energy and resources. As a reminder of the need to dispose of household appliances separately, the product is marked with a crossed-out wheeled dustbin.
